

AAMP Connections

Dear AAMP Members,

It is my honor and privilege to serve as President of the American Academy of Maxillofacial Prosthetics.

Our Academy stands on a legacy of compassion, scientific rigor, and dedication to restoring the quality of life for patients facing some of the most complex functional and esthetic challenges in healthcare. Each year, I am reminded of the extraordinary skill, innovation, and humanity demonstrated by our members—clinicians, scientists, educators, and allied professionals who represent the very best of our specialty.

As we enter this year, our priorities remain clear:

- Advancing excellence in patient care through evidence-based practice and continued clinical innovation.
- Strengthening education and training, ensuring the next generation is equipped with the knowledge, creativity, and empathy that define our field.
- Promoting collaborative research, as multidisciplinary teamwork is essential to solving the challenges encountered in maxillofacial rehabilitation.
- Supporting our members, fostering mentorship, professional growth, and community.

The AAMP continues to expand its global reach, offering a platform where diverse perspectives and international expertise contribute to meaningful progress. Together, we uphold a responsibility not only to our patients but also to the future of our specialty. I am inspired daily by the work each of you does in your institutions, laboratories, clinics, and communities.

Thank you for your commitment to the Academy, to your colleagues, and—most importantly—to the patients whose lives you transform. I look forward to a year of collaboration, innovation, and shared purpose as we continue advancing the mission of the AAMP.

This year, with all your help, we can make our Academy prosper.

With gratitude and respect,

Joseph DiFazio, DMD, FACP, FAAMP
President American Academy of Maxillofacial Prosthetics

Highlights of 72nd AAMP Annual Meeting

"ONE WORLD, ONE MAXILLOFACIAL PROSTHETICS"

Exploring the Patient Perspectives

Dedicated to Dr. James E. Ryan, past President of the AAMP

The meeting was well attended. It was a three-day format, with 249 attendees. Including 20 outstanding meeting speakers, 2 industry workshops, and 3 industry presentations, for a total of 15 industry supporters, including the Maxillofacial Foundation.

AAMP Member: 107
 AAMP Military Member: 9
 Invited Speakers: 7
 AAMP Student/Resident
 Members: 57
 Non-Member: 14
 Non-Member Student: 6
 Non-Member Military: 0

Memorandum of Understanding between the three more Societies and AAMP

A memorandum of understanding was agreed upon and signed between the (Academy of Australian and New Zealand Prosthodontists, Dutch Prosthodontic Society and the International Academy for Oral and Facial Rehabilitation).

The MOU promotes cooperation between the two organizations and builds strategic alliances and scientific collaboration. It also allows members of each organization to attend the annual conference of the other organization as members. Thus far we had a total of six MOU's across the world. This initiative started in 2022 with the British Society.

Oral Presentation Competition

Dr. Nayar introduced the competition. This competition was one of its kind. This category was judged by its complexity and innovation, approach & methodology, knowledge and understanding, clarity and structure, discussion and reflection.

First prize - \$2000 and a certificate. Second prize - \$1000 and a certificate. The four finalist candidates will receive a reduction in their conference attendance fee of \$125 each.

With gratitude to our judges

Drs. Thomas Salinas, David Reisberg, Philippe Nuytens

Congratulations to the recipients of the 1st and 2nd prize

1st Prize.

Dr. Byung Min Nahm

Oral presentation Titled: Maxillofacial Reconstruction via Osteocutaneous Fibular Free Flap and Immediate Dental Implant Placement: The Memorial Sloan Kettering Cancer Center Experience.

2nd Prize

Dr. Shiwangi Dhiman

Oral presentation Titled: Flap-related Outcomes after Intra-Operative Dental Implant Placement in Free Fibula Flap: A Comparative Outcome Analysis.

Presidents Award

The Presidential Award of Excellence was established to recognize an individual who is not a member of the Academy but who has exhibited strong support of its mission and has made a significant contribution to the discipline of Maxillofacial Prosthetics. It was presented at our annual session in New Orleans in 2025.

*The recipient of this award was bestowed upon **Mr. Michael Mathews**. He has been a strong supporter of the Academy. His generosity and kind heart have touched so many lives. He has enriched our organization in so many different ways. We are tremendously grateful for his selfless contributions throughout the years.*

Executive Officers and Board of Directors 2025-2026

Dr. Joseph DiFazio, AAMP President, was inducted at this meeting, as well as executive officers from left to right: Sujei Morgan (Recording Secretary), James Kelly (Executive Secretary Treasurer), Mark Hutten (Vice President Elect), Ruth Aponte-Wesson (Vice President), Suresh Nayar (President Elect), Joseph DiFazio (President).

This evening was special as it fell on Diwali Day, the festival of light. The award committee was very active this year.

The BOD is comprised of Drs. Eszter Ganz, Akanksha Srivastava, Edgar Davila, Joy Wang, Amanda Colebeck and Michael Kase.

Ackerman Lifetime Achievement Award

The award was introduced by Dr. Alvin Wee immediate past president and chair of the nominating committee. The nominee was presented by Dr. Peter Gerngross.

"This award is bestowed upon a member of the Academy who the Board of Directors considered to have made significant contributions to the advancement of this special area of practice".

This year the recipient was **Dr. David Reisberg**, known for his ingenious and charismatic personality that unites members. He leads by example and has given so much to our academy and our subspecialty of maxillofacial prosthetics. He is a dedicated visionary and continues to play an active role as Director Emeritus of The Craniofacial Center at The University of Illinois Hospital in Chicago. Dr. Reisberg is also a consultant at Shriners Hospitals for Children in Chicago and is the past president of the American Academy of Maxillofacial Prosthetics, The International Society for Maxillofacial Rehabilitation and The International Anaplastology Association.

Photo above: Past Presidents of the Academy Drs. Peter Gengross, David Reisberg, and Alvin Wee

Emerging Leader Award

*The Emerging Leader Award was established to recognize a member of the AAMP whose contributions to the field of Maxillofacial Prosthodontics and the Academy are outstanding. The candidate shall have been an active member in the Academy for a minimum of seven years. The candidate has advanced and contributed to the field of MFP through research, education, patient care, MFP advocacy, and/or community outreach. Regular attendance at AAMP meetings. Participates in AAMP committees. This is the first time this award has been given. This year's awardee was presented by Dr. Alvin Wee, immediate past president, chair of the nominating committee. It was granted to an exemplary member of our Academy, **Dr. James "Jim" Kelly**.*

Some of his notable accomplishments include:

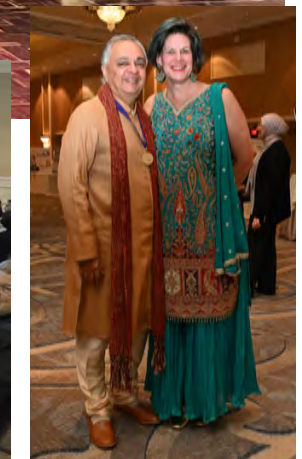

- He directed two MFP fellowship programs and initiated a standalone MFP program at Mayo.
- In the academy, he has been actively involved in various committees for nearly 15 years, including student membership, fellowship, and other committees within the (AAMP).
- He accepted the call to serve as the Executive Secretary and Treasurer of the AAMP for two consecutive 3-year terms.
- At Creighton, he holds the position of Chair of Prosthodontics, aiming to mentor and inspire the MFP profession and serve as the Maschka Endowed Chair of Dental Ethics.
- He has also established a non-profit organization dedicated to providing oral health care and education both domestically and internationally.

AI is here to assist US

AI Is Changing How Patients Find and Understand Maxillofacial Care

During my October presentation at the AAMP Annual Meeting, we explored how artificial intelligence is beginning to reshape the patient journey—not just inside the clinic, but long before a patient ever schedules a consultation.

Today, many patients are no longer starting their care journey by visiting practice websites or calling offices directly. Instead, they are increasingly turning to AI-powered assistants to ask questions like: *“What does a maxillofacial prosthodontist do?”*, *“What kind of specialist do I need?”*, or *“Is there someone near me who treats my condition?”* This shift represents a fundamental change in how patients discover care, moving from traditional search engines toward conversational, AI-driven guidance.

In this emerging model, AI can act as an early “care navigator”—helping patients understand their condition in plain language, setting expectations for what treatment may involve, and guiding them toward the appropriate specialist in their geographic area. Importantly, this does **not** replace clinical expertise or diagnosis. Instead, it helps patients arrive better informed, less anxious, and more prepared to engage in meaningful discussions with their care team.

As discussed in the lecture, this evolution aligns with a broader trend toward *predictive, participatory, and personalized* care—where patients are more actively involved and empowered throughout their journey. For maxillofacial prosthodontists, this presents both an **opportunity and a responsibility**: to understand how AI is shaping patient expectations, information access, and decision-making, and to help guide its use in a way that is ethical, accurate, and patient-centered.

AI is not just a clinical tool—it is quickly becoming part of how patients find us, understand us, and ultimately trust us.

-By Amol Shah

The poster features a vibrant aerial view of the Chicago skyline at dusk, with the city lights reflecting on the water. A large, golden ribbon-like shape curves across the middle of the image, partially obscuring the cityscape. The text "Save the Date" is written in white at the top right. The AAMP logo, a circular seal with the text "AMERICAN ACADEMY OF MAXILLOFACIAL PROSTHETICS" and "1953", is positioned on the golden ribbon. Below the ribbon, the text "Emerging Trends in Maxillofacial Prosthetics" is written in white, followed by "AAMP CHICAGO 2026" in large, bold, white letters. Below this, the text "American Academy of Maxillofacial Prosthetics" and "November 7-10, 2026" is written in white. At the bottom, the "swissôtel CHICAGO" logo is on the left, and the website "www.maxillofacialprosthetics.org", "www.aampconference.com", and email "AAMP@RES-INC.COM" are on the right.

In Closing...

We would like to finish this newsletter thanking all of the members that helped us accomplish this winter edition. We had a well-attended and very successful three-day meeting in NOLA with the seamless leadership of our past Presidents, Dr. "JR" Wilson, program chair Dr. Nayar, RES, many volunteers from the different committees, candid photographers, and sponsors that made this event memorable. We are looking forward to upcoming continuing education opportunities this new year. Welcoming the new President of the Academy, Dr. Joseph DiFazio, wishing him a fruitful year. The Academy is a platform rich in opportunities. It does not matter in what category you may fall into, a student member or a life fellow, the enthusiasm and contribution can be endless and so rewarding. Some of the most valuable features of our group are the collegial environment, the never-ending pursuit of cutting-edge knowledge, mentorships, and achieving lifelong friendships. We hope you enjoyed the selected items in this winter newsletter.
